Mr. Haines,

The Forest FOIA Coordinator sent the following message to Mr. Ehling, regarding the request on February 3, 2014.

Dear Mr. Ehling:

This is to update you regarding status of your request for information under the provisions of the Freedom of Information Act.

I am working with staff in our Forest Headquarters to complete our search for responsive records which we will perfect then route to the national Forest Service office via our regional office.

Superior National Forest

Ms. Reichenbach is expecting to have documentation ready by the end of February.

Thanks

Judi Perez

Thank you, I did receive that from Mr. Ehling. I was hoping you might have more specific dates available. Ms. Sullivan seemed to be suggesting in an earlier email that documents would be delivered throughout February. I would still appreciate as much specific clarification as to your current delivery timing as is available. Thank you for your prompt reply.

Dear Ms. Perez --

On January 28, Ms. Sullivan from your office indicated via email that PRM would start receiving requested USFS public data by mid-February. As of today's date, PRM has not received the data, nor further clarification from USFS as to your delivery intentions in response to our inquiries.

As you are aware, the land exchange correspondence is of significant interest to the Minnesota public on the ongoing mining questions. Please note also that PRM has now received public data from each of EPA, ACE, PCA and DNR, and that the statutory period for PRM's January 8 Administrative Appeal with USFS has passed. It is clearly reasonable for PRM to expect to receive the USFS data promptly. We appreciate your response.

Regards,

JT

Hi JT,

I have spoken with FOIA personnel at the Forest level to find out more information and have forwarded your email to them. They are continuing to work on gathering information and are making progress. They will be better able to provide a more thorough response and perhaps include a better estimate of when the information might be available.

Thank you.
