**Subject:** CVs  
**Attachments:** Control volumes - marinelli - 2012-08-06.PDF

Cory and Peter,

The Agencies and ERM asked me to put together figures showing all the CVs that can be defined for the Mine and Plant Sites. These are shown in the attached pdf with annotations. Discussions are required to prioritize the CVs and determine which ones will be set up for the current (first) phase of Task 2 QA.

Regards,

Fred
