Fred and Dave

Before you send any comments or recommendation regarding the EPA checklist used to review the Barr QAPP, I would like to set up a meeting to discuss with you. Can we possibly get together by phone of Thursday morning or Friday morning of this week?

Let me know and I will schedule it.

Thanks

Mike

Morning Fred and Dave

Attached is the EPA letter we received in regards to the Barr QAPP document that EPA was asked to review. In the letter you will notice the checklist that EPA went through during there review. We would like the ERM team to review the EPA response letter and determine if any of the elements in which EPA determined as missing or only partial included in the Barr QAPP need to be include. Also, be thinking about inclusion into the ERM QA/QC document if need be.
