Subject: Meeting to Discuss USEPA's Comments on GoldSim Model

Tina, Dave, and all, I'd like to set up a meeting on Tuesday afternoon (04/09/13) to have a high-level discussion of EPA's comments on the GoldSim model.

I'm thinking this could be a call originating from Barr's offices...maybe starting at 1:30 or 2:00 PM...and lasting for a couple of hours.

The goal would be to identify where further consultations with EPA are warranted based on what they have provided.

I do believe the principals at this time are the Barr and ERM modeling teams. I want to hear the discussion but certainly leave participation by the Tom Hingsberger and Tom Hale open too.

I am open to Monday PM too (4/8), but I put out Tuesday in case we get comments from the other cooperators. The comment period closes on Monday.

Please advise. Thanks. Bill.
