Melinda, this message is to acknowledge receipt of the final round of QA/QC for the Mine and Plant Sites' GoldSim models.

Congrats to the ERM team for reaching this project milestone. Bill J.

Subject: NMet: GoldSim QA/QC

Hi Bill,

Attached is the memo containing the QA/QC evaluations for the Mine and Plant Site Models. The overall conclusion is that "there is good evidence that the v5 GoldSim models are functionally accurate and have addressed all issues identified by the ERM Team. The Team concludes that the v5 GoldSim models have acceptable reliability and can be used as a basis for assessing environmental impacts in the SDEIS."

Thank you,
Melinda
