Subject: RE: Review of GoldSim Inputs

Hi Tina

We just got approval yesterday of our Model Evaluation Work Plan and are now authorized to review the materials you sent

Stuart will be sending you that plan today if he hasn't already

I suggest that we try to have a conference call today (perhaps with Peter) to make sure we are aligned and have everything we need

I am free anytime after 2pm – I am confirming fred's availability

Let me know your/Peter availability for this afternoon

thanks

Tina - - although Dave Blaha was unavailable last week, he is the one who is managing ERM team review (including Fred) on water documents.

Dave - - please chime in with status

Thanks, Al

Erik, Al-

I just wanted to touch base with you regarding Fred's review of the Mine Site GoldSim inputs. We never heard back from anyone following our submittal of the inputs last week, and I wanted to make sure Fred was able to work with what we sent him. Please confirm that our deliverable was acceptable. If so, we can submit a similar file for the Plant Site model.

Thanks,
Tina
