Tina requested that if there are any serious errors to contact her first before putting it in writing. Thanks for seeing this through.

Fred

Thanks for letting me know

Please keep me posted and thanks for the hard work

Subject: Plant Site Task 1 input review

Dave,

We ran into some snags regarding the outputs generated by Barr. Rather than resubmit our request for outputs, we came up with some ways to get around what they sent us. Unfortunately it added a couple of days to Paul's effort. We expect to complete the review this weekend and issue a memo on Monday. The memo will discuss how Barr should generate the outputs next time so that this problem is not repeated.

Regards,

Fred
