Subject: Water review team

Hi Erik

Hope all is well

Al sent me an email letting me know that you are planning to establish a small working group to help reviewing the NorthMet modelling

I am happy to participate in that

I understand you are thinking of having the first meeting next week – unfortunately I will be out the country all of next week

I would suggest Fred Marinelli and Houston kempton participate either face to face or via conference call

John Adams is actually the “local” guy and cheapest to have participate – depending on the agenda for the first meeting it may make sense to have him participate as well

I look forward to hearing more details

Happy to discuss if helpful

Take care

David W. Blaha
