Subject: DoD Exercise Review

Cmdr. Skoro,

I've been tasked by the Chief's office with preparing a formal report on MPD's involvement with the Department of Defense exercise during various dates in August 2014. This is not an investigation and there is no allegation of misconduct or inappropriate action by anyone involved. It is an attempt to better and more thoroughly understand the role of the MPD in this training.

If you have some time today, I would like to meet with you and get a little more information about the exercise. I would also be interested in copies of any documents you have related to the MPD role in this exercise. Any consideration of meeting before the weekend is appreciated. If that is absolutely not possible, please let me know of your earliest availability next week.

Thanks,
Lt. Schoenberger
