To: "Flaherty, Sherrie (MDH)" <sherrie.flaherty@[REDACTED]>

Dear Ms. Flaherty,

Last year, I submitted a data practices request to obtain data relating to environmental monitoring from 1953-2004. Specifically, I am interested in data about environmental radiation that could be either attributable to nuclear power plants, or to historical above-ground testing.

I recently received data from Robert Smude of MDH relating to Tritium sampling from ground water sources. Mr. Smude indicated that you may hold data related to radiation sampling near power plants. If this is the case, I would like to arrange a time to inspect any such data from the years prior to 2005. I will make copies of subsets of the data after inspection.

Please contact me at your earliest convenience to arrange a time to inspect such data. If you have any questions regarding my request, please contact me so I can offer additional clarity.

Sincerely,

Matt Ehling
