I have confirmed the representative for RemingtonELSAG, Matthew Maxwell, will be here on Wed. Feb 20th to do a 45 min. slide/talk presentation, and then conduct in-car rides/demos of the License Plate Recognition system for those who want to ride with him and see how it works.

The presentation will take place during the regularly scheduled Commander's Meeting at 0930.

I have asked the Districts to send a patrol representative - someone likely to be using the system once it is implemented.
