Steve, attached is the agreement signed by both parties. Thanks for all the help getting this signed. We will stay in touch and coordinate accurate dates and times as we get closer. As of right now our primary date is between 11 and 15 August for daytime training. This copy is for your records. I will be in town next week and drop off the original to Viola at the Minneapolis center. Talk to you soon,

Steve, because we are only using detergent rounds at your site the possibility of damage is minimal. The agreement is a template we use from detergent rounds (used at your site) to explosive breaching at other sites. If however we accidentally broke a chair or window (very minor), it explains that we will in fact have it repaired. It is standard language in the agreement to let the owners know we will not conduct training and then just leave. In fact if you read paragraph 7 it states that we will conduct a walk through before and after training with you to make sure we return the site like it was before and to make sure you are happy with the condition. Hope this gives you a better understanding of our intentions. Talk to you soon,

st today I received some feedback. The concern is over damages. SPPD SWAT has been careful not to damage the property. The agreement you sent has provisions for us to claim any compensation for damages but because the property is on the market, our main concern is not to incur damages. What language can you add to reduce the chance of incurring any damage?

Steve, Les, this is a follow-up to see if you have any questions for me at this time. Is there anything I can do to help the process along? The sooner I get the agreements back we can start finalizing our schedule and I can provide you with accurate dates and times. Standing by,

Shawn, attached is the agreement signed by both parties. Thanks for all the help getting this signed. We will stay in touch and coordinate an accurate date and time for placement of the equipment as we get closer. It will probably be the 8th (Friday) of August but as stated we will let you know. Talk to you soon,

Shawn, thank you for the opportunity to use your site. To answer some questions you probably have, there is an attached document which explains our insurance and indemnification. Additionally, I will explain how we will set up/place equipment.

- Command personnel arrive at site and conduct walk through with property POC to discuss any last minute issues.
- Site is set and equipment is placed.
- Training ends and site is cleaned – we take the equipment off the roof.
- Government representative (usually me) conducts walk through with property POC to ensure site is left in satisfactory condition.

Reference information:

- Dates of use are 8 – 23 August 2014. We have asked for these dates to encompass the entire training event. We will place the equipment and will probably access the roof once per week to check on/conduct maintenance. We will coordinate through you for times/access.
- Proposed activities are listed in paragraph five of the agreement.
