Gents:

Version #1

Last night, a Department of Defense training exercise was conducted in the Twin Cities metro area in close coordination with local law enforcement agencies. We apologize for any alarm or inconvenience this training may have caused but security and safety is our primary concern. Night training will occur through Thursday.

Version #2

The Twin Cities would like to assure residents that last night's training involving the use of helicopters was closely coordinated with Department of Defense and local law enforcement. Due to security and safety of our citizens, we regret any inconvenience. We appreciate your patience and understanding as night training will occur through Thursday.

Let me know if you have any questions.

Also, FYI, the media outlets in the first release cover both Twin Cities.

Thanks!
Suzanne

S....

Those are great, I like it. Get them through the first night and should be more understanding the rest of the week.

Thanks!
Allen

Good copy. Tim - let us know if they are acceptable by the Chief. And we need to distance ourselves from anything other than DOD or USSOCOM.

input?

After looking through the tweets and articles from the local paper do we want to go with USSOCOM? Supposedly a city official said it is SEALS and army pilots. We are going to defer to SOCOM anyway, correct?

So much for a NDA....

Leave it as DoD for now, I will contact SOCOM PA in the morning to ensure they are good with it

Gents: As requested.

Last night, a Department of Defense training exercise with a U.S. Special Operations entity was conducted in the Twin Cities metro area in close coordination with local law enforcement agencies. We apologize for any alarm or inconvenience this training. Public safety is of the utmost concern, which is the MPD's role during training. Night training will conclude on Thursday evening, Aug. 21.

Pls edit as necessary.
