Matt,

The search and retrieval time for four individuals (number of hours x hourly salary + 20% for benefits) is below.

Please note that we require individuals, regardless of their pay scale, to go through their own computers and emails for search and retrieval because of other not public data that may reside on the computer.

4 hours = \$177.60

1 hour = \$58.70

3 hours = \$203.18

4 hours = \$ 171.40

Total: \$610.88

Other costs will include .25 cents per page for hard copies, \$1.00 per CD (for the CD), and any mailing costs. These costs have not been tallied or included.

Please let me know how you want to proceed.

Best,  
Sheila

Hi Sheila,

Thanks for providing the numbers. Please proceed with copying the digital data. I am willing to pay the \$610.88 for the search costs, in addition to any associated costs required to burn the data to a CD. I will pay in the manner required by your agency, and would like to pick up the disk when it is ready. Please let me know how you would like to proceed.

Please also advise on the total cost of the paper copies prior to running them. Once I get that figure from you, we can discuss how to proceed on payment/delivery of the hard copies.

Best,

Matt Ehling

Hi Matt,

One clarification: Did you want copies of the digital data you viewed on the computer in addition to the two flash drives, or just the two flash drives?

Thanks!

Sheila

Hi Sheila,

Thanks for checking. I'll take copies of the e-mails (and attachments) that I viewed on the inspection computer, in addition to the complete contents of Drives F or G (the flash drives). Those e-mails were labeled:

Title: "PRM Inspection - Twin Metals Files"

Sent: "Wed @ 3:53pm"

No message

Copy: All three attachments: "ACCESS Design Report.pdf; 080213.pdf;  
081213.pdf"

Title: "PRM Inspection - PolyMet"

Sent: "Wed @ 3:53pm"

No message

Copy: All four attachments: "012012.pdf; 012412.pdf; 031313.pdf;  
031313a.pdf"

Thanks much,

Matt
