it is unacceptable that we allow military to fly so low in a big city

outraged

outraged

whole house was shaking, so scared she called 911, don't militarize the police

are you trying to terrorize the people of Saint Paul?

militarizing the police is unacceptable and this should stop

unacceptable to have military fly below/between buildings in urban area

strong opposition to current/future exercises

don't wake civilians up at night with helicopters, and train in unoccupied areas, not occupied cities

the military has no place training for civil unrest in St. Paul

extremely dangerous and unacceptable

shocked at militarization of the urban police

ensure helicopters fly over other cities next time, they were too close/loud

disturbed at military exercises, waste of tax dollars

appalled, the exercise is dangerous

not happy about helicopter flights

this isn't a war, this is ridiculous

alarmed at helicopters at 11pm while children were sleeping

copters were loud and intimidating, demilitarize the police

concerned that residents were not informed ahead of time

not happy that such activity was not made public ahead of time

outraged at militarization of police

reminds her of RNC, very angry about militarization of police

don't militarize police, shook his house, end this NOW

why are we not notified?

I own property in downtown, was shocked to see 3 copters, and two had lights off, this is reckless/dangerous

opposes military exercises, will tell others to call us
