Subject: Re: Night Stalkers to continue helicopter training over cities until Thursday - TwinCities.com

The tv news was not that bad. And the pioneer press article is good. Unless another night of copters or Thune stir up the story again, we could be past this. I talked with all the CMs except Bostrom today to see where they were at.

Tolbert told me how pissed he is. He claims some of the building owners who had to give permission for the repelling obviously knew about the exercise. So he's mad that some people knew and others didn't. He's most mad at SPPD and says it is consistent with their bad communications.

Lantry was in a tizzy but Thao and Brenmoen had only a couple of calls so didn't seem to care.

Thune seems most angry with us at the moment. He knows that Jake knew and that no one from the Mayors office told the Council.

Stiles sent me a text saying that they didn't appreciate Tonya throwing them under the bus in the PiPress without giving them a heads up. After a quick exchange he seemed ok and more just wants us to tell them what we are doing.

Let's hope tomorrow is better. KB

Kristin Beckmann
Deputy Mayor
City of Saint Paul
