Subject: FW: BEFORE 7 p.m.: Revenue figures for Grand Avenue

Joe, Ellen and Todd –

Below is the conversation we had last night. Are you saying you'd like to go in a different direction?

Please advise – but we had told the mayor to use the net numbers and that's what he did.

Many thanks,
Tonya

Agreed.

On Oct 19, 2015, at 6:25 PM, McCarthy, John (CI-StPaul) <john.mccarthy@> wrote:

Net revenue makes most sense to me. It factors in the ongoing maintenance and enforcement costs. Net revenue is \$400k for a partial year in 2016; and \$600k for full year starting in 2017.

We have a separate funding source (the parking fund) reserved for purchasing and installing the new meters on Grand.

Hi Kathy, Hi John,

I am including the Mayor here.

Kathy and John, you are saying slightly different things from one .

Does anyone object to the mayor using the NET revenue figures outlined below? The mayor needs to have solid numbers ahead of his meeting tonight and I'm seeing it reported differently.

Thanks,
Tonya

Including John McCarthy as Scott is out. He says it's \$600k, not \$800k. That's the number we'll give to reporters and it's what's in the budget. Kathy, let me know if there have been some other conversations that are getting us to different numbers.

Thanks!

Subject: 2016 Grand Avenue Meters

The Star Tribune is reporting that the meters program will yield \$800k.

I understood from the budget process that it was:

\$400k the first year (when we paid for the meters)
\$600k after that.

Can someone please tell me which number we should use for post-2016?

Thanks!
tonya
