Hello Judy,

Please see below.

This is the request I was talking about on the message that I left for you earlier. I just noticed that this request originally came from your office.

**Importance:** High

Kim, fyi, Mr. Kaszuba not only agreed to the additional time to respond to his FOIA request, but also clarified his scope to "educational and enforcement actions." AUS will respond to any educational actions, we are not involved however in enforcement actions. Thanks Shari

Shari Harvey  
Federal Aviation Administration --

Thanks for your email, and it was good talking to you today.

Yes, we would agree to the additional time you have requested.

And, after talking to you this afternoon, we would like our request to include both educational and enforcement actions taken by the FAA in Minnesota regarding drones.

Feel free to contact us if you have further questions.

FOIA Request 2017-003647 (Kaszuba)

Good afternoon Mr. Kaszuba,

Your FOIA request has been assigned to my office, the Unmanned Aircraft Systems (UAS) Integration Office, for processing. Our office would like to request an additional 10 business days, from 3/7/17, to complete the processing of this request. Your new due date would be 3/21/17. In addition, I'd like to ask that you clarify the scope of your request. You have requested "cease and desist" issued by the FAA for drone activity in Minnesota for the period of January 1, 2013 to present [January 30, 2017.] Can you clarify "cease and desist"? The FAA does not issue "cease and desist" notifications. If you could respond to me via email at [Shari.L.Harvey@\[REDACTED\]](mailto:Shari.L.Harvey@[REDACTED]), or via phone at [REDACTED] it would be greatly appreciated. Thank you.
