Thanks Matt. DEED does not have an overall contract with Greater MSP, however, please feel free to send over a data request if you wish and I'll get it in the que.

Good morning,

Thanks for the information. I assume that Greater MSP has an overall contract with DEED to perform services for the State of Minnesota, even if there was no specific contract for the Amazon bid. I'll send a data request for the overall contract later today.

Best,

Matt Ehling

RE: Data Request: Minnesota's Amazon Proposal

Matt – DEED did not execute a contract with Greater MSP to compile and submit the state's proposal.
