Hi all-

As many of you know, with the recent restructuring of HHI, the Oversight Team is tasked with preserving and monitoring existing housing resources. With the restructure and staffing changes, we have had to reassign some work to ensure that we are monitoring all of the programs and completing all of the work within our responsibility. I'm writing today to let you know about the new staff assignments. The attached chart shows what each staff person will be managing in the future. We will be making these transitions over the next couple of months so I ask for your patience as staff are learning and taking ownership of their new work. Once the transitions have progressed more, I will send another email with contact information for staff and the facilities/programs they oversee.

Below are some reassignments that I wanted to highlight:

1. GRH Demo will be transitioning from Allan Henden to Pamela Koens. Next step: Pamela will arrange a transition meeting with Allan.
2. Housing First and Specialized Choice will be merged into LTH Supportive Housing (following the recent MN Statute changes) with Nathan Nyren as the lead staff. Pamela will be working with some programs currently within Specialized Choice. Next step: I will schedule a transition meeting with Cate, Nathan, and Pamela.
3. A new Principal Planning Analyst will replace Allan as the CoC Coordinator and will be taking on the subsidy work that Lynell Tanner is currently doing.
4. Customized Living will be transitioning from Cate DeVaan to Lynn Fumuso. Pamela will also be supporting this work. Next step: Lynn will arrange a transition meeting with Cate.

Please let me know if you have any questions regarding this. I'm optimistic that these changes will go smoothly and quickly. Thank you all for your support of the Oversight Team staff as they make these transitions.

Best,  
Kristen Brown
