INTRODUCTION:

The Minnesota Department of Public Safety, Homeland Security & Emergency Management [HSEM], pursuant to Minnesota Statutes, Sections 12.27, subd. 2, and 192.89, the "Interstate Emergency Management Assistance Compact" (EMAC), coordinates emergency management and interstate mutual aid for the State of Minnesota. EMAC is the interstate mutual aid agreement to which all states belong that allows states to assist each other in times of disaster. When any member state's Governor declares a disaster or when a disaster is imminent, other member states may agree to provide assistance in response to requests from the impacted state(s). The assistance from other member states may be in the form of personnel and/or other resources.

EMAC has been implemented to assist the State(s) of North Dakota

to respond to Dakota Access Pipeline (DAPL) Project

In response to pending EMAC requests, HSEM through the Minnesota Emergency Management Assistance Compact (MN-EMAC) has identified experienced and qualified public/private/tribal employees who are available to deploy and have agreed to assist with the response and recovery missions in North Dakota.
