

David was driving the vehicle showing his family member passengers the auto pilot mode of his car. While driving under the speed limit eastbound on 172 Ave NE, he put the car in auto pilot which makes the car drive itself. The vehicle accelerated rapidly without David touching anything or doing anything and the car left the y intersection eastbound across 141st st NE. The vehicle entered the east side ditch and rolled over on its roof ending up in a swamp. All occupants were able to get out and everyone had minimal injuries including straps, cuts, and sore limbs.
