

Sheriff, Chief,

I think our policy accurately depicts how deal with ICE individuals. I would just send her our policy as this will keep our messaging consistent. The executive order doesn't change anything for us. Readers digest version. We don't arrest people for civil ICE violations. If an inmate is in our jail on a state criminal charge and they also have a ICE detainer. Our Jail staff would contact ICE upon the inmate's release to inform them that the inmate is being released and if ICE wants to come pick up the inmate they can. Outside of our jail.

FYA, thanks! Let me know when it is complete. Scott Williams will need the information.

Julie,

I would like Booker to prepare it as government relations inspector. He will need Joe's input no doubt. But Booker should be the POC on this.

Jack

Hi Jack,

Is this something for Joe to prepare or Booker?

Julie

Julie:

We will need to put something together for the Board.

Will you please coordinate an update with Sheriff's Office and

Legislative? Thanks.

Subject: Sheriff Office/County Board Policy

Please provide me with the Minutes and/or the policies surrounding the issue of asking about immigration status, if that is not the reason for interacting with law enforcement. I would appreciate the same info regarding ICE Detainees in the ADC. These discussions took place both at County Board meetings by Commissioner Ortega and at the budget hearings a number of years back.

Also, what do we know about the impacts of being labeled "sanctuary" (do we know anything more about this imaginary list?) and what actions, if any, are the other metro entities taking in response to this Executive Order.

Our vision of opportunity and prosperity for all can only happen by treating everyone with dignity and respect. Turning our deputies, in essence, into federal immigration agents does exactly the opposite.

Thanks,  
Victoria
