---

I have briefing information in the G Drive Policy folder for further background if a call is placed on the Governor's schedule.

Tiffany,

I'm connecting WEDC with you regarding a scheduling request for this Friday afternoon (2PM CST). Coleman (cc'd) has further details if you need them pertaining to topic of the meeting/call (some info is below).

Thank you,

Rachel

**Importance:** High

Hi Rachel –

Please note the request from Coleman regarding a potential call with Foxcomm this Friday afternoon. Only details I have are below. I'm on the road so if you can work directly with Coleman on more details if this is an option, I would greatly appreciate it.

Thanks,  
Rebecca

**Subject:** RE: Foxconn meeting request in Washington DC with Governor Walker

It would be this Friday around 2pm. Super late notice as I got the call this morning.

Foxconn is looking at reshoring \$10 billion and 10,000 jobs. I am waiting on some additional

information via email from Foxconn on the project itself. I believe this is in response to the potential boarder adjustment tariff, but do not know that for sure.

They realize this is super last minute and Governor's are extremely busy, but I told them I would inquire.

When are you asking for and can you provide more information on the ask?

Thanks,  
Rebecca

Rebecca,  
I received a phone call from the White House Office of American Innovation this morning. Foxconn is requesting a meeting in Washington D.C. this Friday. Fortunately, Mark Hogan has a vacation scheduled to Washington D.C. this weekend and is able to make the trip on behalf of Wisconsin. Foxconn would really like to speak with Governor as well. Do you think he may be available via phone?

I am going to forward the email I just received with the Foxcomm team.

Coleman Peiffer, AICP
