Subject: Re: On environmental protection issue related media coverage...

Scott,

A new version after incorporating your feedbacks.

Flying Eagle Team,

If you are contacted by any media, please pass the inquiries to the PR team. We will send in the latest media statement on environmental protection related issues.

Best,

Louis

主题: Re: On environmental protection issue related media coverage...

This looks good. A couple of suggestions: use bulleted points and consider making them more definitive. Example: Foxconn will x; Foxconn will y; etc. that easier for the media and public to digest in my opinion. Just a suggestion.

We are working on our explanation of the environmental initiatives in the bill to explain they do not allow any environmental degradation but rather

streamline the process.

Will share when we have a draft. Should be tomorrow.

Hi Scott,

Hope that you are having a relatively peaceful weekend.

The enclosed media statement has been written primarily for the Wisconsin audience. We think that it would be strange if Foxconn and the State issue a joint statement so this is written for Foxconn to issue and the State could issue a separate statement that complements this.

If this issue dies down over the weekend, we will NOT proactively issue this statement to generate another news cycle.

You and I can decide if and when Foxconn's statement should be out and if and when the State should release a similar corresponding statement to let the public know that we are on the same page and share similar commitments to environmental protection issues.

Best,

Louis
