Re: Your Data Practices Request

Dear Mr. Ehling:

This letter is in response to your data practices request where you asked to inspect and/or copy public data relating to “tax abatements related to the 2018 Super Bowl event, including cost estimates related to those abatements.”

As I explained in an initial telephone conversation with you about your request, we interpreted your request as related to tax incentives rather than “abatements,” which is not a term with which we deal.

I am in receipt of your check of \$28.00 for the copy fees and am enclosing all responsive, non-privileged documents as required by the Data Practices Act.

Please note that among the responsive material are documents detailing cost estimates. Some of these documents are preliminary versions of cost estimates and, therefore, may not contain the full or final calculations.

Sincerely,

Craig Steiner
Records Manager and Data Practices Compliance Official
