## FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/27/2005

A surveillance was conducted during the weekly demonstration at Alliant Techsystems corporate headquarters by the protest group ALLIANT ACTION. The protesters started arriving at 0700 hours. The demonstration started at 0730 hours and concluded at 0800 hours. There were 32 protesters and no arrests were made.

Three of the four main subjects of the investigation were present. Most of the content of the demonstration had nothing to do with Alliant Techsystems. The source feels that the group may be fracturing and losing direction. However, the inclement weather may have been detrimental to more protesters participating at the demonstration.

End Report.

Investigation on 04/27/2005 at Edina, MN
