The response provided below are the words that we retrieved from the United States Postal Service (USPS) computer systems. We (LetterStream and OnlineCertifiedMail.com) are not the USPS and took no part in delivering or attempting to deliver your letter. Any place the word "we" appears in the response below, is a direct reference to the USPS and not LetterStream or OnlineCertifiedMail.com. Please direct any questions regarding the information below to the USPS at: www.USPS.com OR 1-800-ASK-USPS

Your item was delivered at 11:34 am on May 17, 2010 in WASHINGTON, DC 20530.

1. Notice Left, May 17, 2010, 10:19 am, WASHINGTON, DC 20530
2. Arrival at Unit, May 07, 2010, 8:56 am, WASHINGTON, DC 20024
3. Acceptance, May 05, 2010, 12:51 pm, SAINT PAUL, MN 55114

Product Overview

Revolutionize your Certified Mail

Online Certified Mail is a great way to create your mail online and have it mailed via the United States Postal Service (USPS). The process is as simple as sending your file to our website. After you approve your instant online proofs we do the rest. We print, fold, insert and mail your letters using our USPS approved Certified Mail envelopes.

Our automated printing and mailing facility, with USPS integration, can easily accommodate any number of pieces in your mailing. We maintain all your mailings online giving you real-time access to view and track the status of each individual mail piece. After your certified letter is delivered, you will be able to see a printable image of the signature next to each letters' tracking information.

This revolutionary process allows you to send literally thousands of certified mail letters in less than 10 minutes. In addition you can quickly and easily view the real-time status of every letter in a single glance.

Save Time, Save Effort, Save Money and eliminate the headaches of manually processing your certified mail.
