Subject Fw: Next Meeting re: PolyMet - Wild Rice

This is a follow up to yesterdays message. This meeting concerns PCAs draft interpretation of the WR standard applicability as it pertains to Polymet. I view this as a WQB lead item as it seems PCA has developed an interpretation of the standard and where it is applicable. NPDES will participate in the meeting. To keep things simple please let me know if you are available on that date /time and I will respond to Katie. thanks

Subject: Next Meeting re: PolyMet - Wild Rice

Would Thursday, Sept. 6 from 10:00 AM – 1:00 PM work? Our wild rice team has consisted of mining, permitting, WQ standards, and effluent limits staff and management from MPCA, as well as wildlife and botanist staff from DNR. I invited the whole team as of now to hold the date, we will talk further internally to determine who is needed. Our attorney is invited as well. As discussed, Ann Foss and I, and several company representatives (including their attorney), will attend in Chicago, the rest will be via video.

Please let me know at your earliest convenience so we can work on travel arrangements. Thanks, Kevin.

Subject Re: Fw: Next Meeting re: PolyMet - Wild Rice

Linda,
I should be returning by Thursday or Friday, 13-14 September. Maybe we could suggest early the following week.

Kevin -- Neither Chris nor Tom are available. Only Dave and I are, and we certainly don't know as much about Polymet as they do. If it's absolutely critical to have the meeting on that day, we can go ahead. If it could be rescheduled for a different week, that would be better.

I thought when we got to WQS issues, the Tribes were going to be invited, but I don't see them on the list of possible attendees.
