I agree. Furthermore, this team could/should meet every week for the next 6 weeks or as much as necessary.

We will need to sort out over the next few weeks how we can add ALL of the interested partners into the mix on this one. if anyone ends up feeling left out, it will become very public. A good strategy around this would be in our best interest. We are getting in offers of support as well as sites.

FYI—Dan P. wants to speak with me at 3PM regarding the HQ project. It might make some sense to make sure he is in the loop moving forward, as I'm going to make an assumption that for most realistic site options here in the metro—they would serve it. I'll let him know where we stand (as of today) and a more coordinated discussion will be scheduled (post-tomorrow's meeting at the Gov's residence).
