Dear Mr. Painter

I hope Trump's downfall (conflict of interest charges) are as a result of elephants. I understand he put temporary hold on it tonite but it is so obvious the law was being rescinded so his son could bring big game trophies into the country.

This is the same son that advocated for silencers. I understand there may be a lot more he advocated for that lands him in jail.

Thank you for your advocacy, hard work and determination seeing to it Trump is brought up and brought before ethics panel and made to discuss his blatant disrespect and disregard if science, facts and protections so clearly intended to enrich his coifures and benefit his greedy insensitive children/operatives.

Thank you again - sincerely,

Steven Abel
